

**O**Deliver**Early** 

Early Automates Your Collaborative Supply Chain To Accelerate Time To Market.

## **Supply Chain Profit Challenge**

### According to McKinsey & Company

## **DeliverEarly**

SUPPLIER

Management & Analytics

100%

Data Transparency

**15% EBIT** 

With Supply Chain Collaboration Tools

# Why the Disconnect?

### Delays

No single source of truth between factories and brands disengaging stakeholders from visibility of supply chain delivery timelines.

### Result

- ✓ Increase shipping cost
- ✓ Chargeback from retailer
- ✓ Fees imposed by retailer
- Loss of margin for all stakeholders

### Communication

Traditional method between factory and brand manufacturer are spreadsheets and emails.

### Result

- ✓ Communication delays
- Locating recent spreadsheet and inconsistencies in updates

# Deliver**Early**

Supply chain collaboration between all major stakeholders for best-in-class supplier management and communication.

### Result

- ✓ Enhance collaboration
- Single source of all documents
  & communication
- ✓ Reduce delays on orders

### Deliver**Early**

### Passionate Dreamers. Capital Partners. Business Leaders.

#### Hatel Bhakta, Partner

Hatel is a dynamic trailblazer, renowned for her groundbreaking approach. A serial entrepreneur revolutionizing the realms of marketing, technology, real estate, logistics, energy, and early stage investment. Her ability to weave creativity with strategy has led to the creation of multiple thriving enterprises that inspire others.

#### Mitesh Solanki, Partner

Mitesh is serial entrepreneur with an unyielding passion for transforming industries. He has built a formidable portfolio of successful companies across marketing, logistics, real estate, energy, software, and technology. With a knack for identifying untapped opportunities, he thrives on turning challenges into lucrative ventures.

#### Mehul Patel, Partner

Mehul Patel brings a wealth of experience with over 20 years of experience in digital marketing, commercial real estate, and oil & gas. His adeptness with technology facilitates efficiency in operations and stimulates advancement whereas his proficiency in digital marketing enhances the online visibility of brands.

#### **David Kadosh, Partner**

David Kadosh is a seasoned professional with 30 years of combined experience in the high-tech and apparel industries. He holds an engineering degree and master's in information systems. His unique blend of technical expertise and industry knowledge, coupled with startup and corporate, experience is a valuable asset to the board.

#### **Doron Kadosh, Partner**

Doron Kadosh, is the CEO and Founder of 2253 Apparel, LLC, a multi-million-dollar clothing company serving major retailers such as Walmart, Macy's, Nordstrom, Costco and many others. With over 30 years in the apparel industry, Doron has built strong relationships with key industry leaders, enhancing his ability to drive new ventures.

#### Dhruba Mukherjee, Chief Technology Officer

Dhruba Mukherjee brings over 20 years of experience in application development projects, product development, mobile apps, and information technology. A blend of strategic thinking, strong leadership, and the ability to manage both the business growth side and the successful execution of the projects.

# Unleash The Power Of AJF or Agile Supply Chain

Time to market with agility and resilience using a collaborative smart digital supply chain platform that provides visibility, insight, proactive management, and risk mitigation.

- 1. Messaging with built-in file management
- 2. Activity feed on each individual purchase order
- 3. Progress management
- 4. Information shared across all team-members

# **Designed With Purpose**

Early is an AI-driven digital collaborative supply chain platform. By integrating intelligent automation and real-time collaboration, Early accelerates the design and production process, ensuring faster time to market and ontime delivery. Our solution transforms outdated processes, bridges the gap to Industry 4.0, and eliminates inefficiencies in manufacturing. Streamline production management from order creation to delivery and scale operations globally.

# Proactive **Risk Management**

Unique algorithms adjust to the pace of your business. Real time risk indicators keep you in know so that you can take preventative steps to ensure your deliveries are back on schedule.

- ✓ Supplier Delivery Metrics
- ✓ Supplier bottlenecks and consistent challenges
- Responsiveness Between Stakeholders
- Potential number of days delay to delivery
- ✓ Predictive & prescriptive analytics

# Real-Time Collaboration

- Tracks and saves every conversation and file shared between your team and suppliers.
- Easily find what was communicated, by whom and when for clear accountability.
- Save on average of two hours daily by eliminating searches for documents through countless emails.

# Flexible Workflow Engine

- Manage the entire supply chain process. From product development to purchase order issuance to delivery.
- Remove the need for emails and spreadsheets between brands and factories.
- Track, manage, and collaborate with your team with an all-in-one platform.

# Easy Ai **Chat Summary**

Owners & operators are busy and often need a quick summary so they know where their time is needed most. We make it easy!

ѽ

Al summarization

Mel Patel informed the team that the first fit submission was approved and requested to proceed with wash approval. Michael submitted the wash for review, but it was denied by the buyer due to incorrect garment color, referencing the tech pack for correct specifications. Josh then submitted a new wash for review, noting changes made to the tech pack and attaching it for reference. He later inquired about updates on the revised wash submission. Michael confirmed that the new wash had been approved by the buyer and instructed to inform the factory.

## Tailored Visibility, Total Control.

- Configure your manufacturing journey.
- Overarching milestones to intricate sub-processes, our system integrates it all.
- Real-time tracking, specialized workflows, and permission-based views come together to offer unparalleled insights and communication.

### **MVP Key Features**

- 1. Proactive Risk Management
- 2. Enhanced Collaboration Tools
- 3. Intelligent Automation And Predictive Analytics
- 4. Real-time Visibility And Monitoring
- 5. Seamless ERP And Third-party Integrations
- 6. Ai-driven Demand Forecasting And Capacity Management
- 7. Comprehensive Reporting And Dashboards
- 8. Multi-tenancy Platform For All Stakeholders
- 9. Project Management And Flexible Workspaces
- 10. Automated Workflow And Templatization
- 11. Multilanguage And Automatic Translation Services
- 12. Purchase Order Management
- 13. Document Management System
- 14. Interactive Real-time Chat With Milestone Tracking
- 15. And so much more...

## Deliver**Early**

## Product Roadmap Looking Ahead

- 1. Autonomous sourcing app
- 2. Simplified quality app
- 3. Compliance and sustainability modules
- 4. Production scheduling
- 5. Demand forecasting
- 6. Shipping app
- 7. Invoicing and payment solutions
- 8. Onboarding enhancements
- 9. Deep AI functionality, including predictive and prescriptive analytics
- 10. Integration apps and more automation
- 11. Actionable insight dashboards
- 12. Expanded industry focus
